MEMORANDUM FOR: Deputy Director of Central Intelligence

THROUGH: Deputy Director for Intelligence *g*

FROM:

Project Director, Future Space Missions Colloquium

25X1

SUBJECT: Status of Future Space Missions Colloquium

1. Plans for the Future Space Missions Colloquium have progressed steadily since your meeting with the other Sponsors on 12 March and we expect that all will soon be in order. We appreciate your planned participation in the Colloquium and your giving the Keynote speech on 3 June. We are preparing some ideas for your consideration.

25X1

2. As you and Dr. Keyworth suggested, the number of speakers has been significantly reduced and each has been asked to speak for about one hour. Norman Augustine, George Low, and Bud Wheelon have all agreed to serve as moderators of the military, civil, and intelligence uses sessions respectively. An hour or more will be allowed for discussion at the end of each of the three sessions. Eberhardt Rechtin has agreed to serve on a panel with Bud Wheelon and George Low to formulate the findings of the Colloquium.

25X1

3. As indicated on the preliminary agenda which is attached, Robert Cooper, Lt.Gen. Richard Henry, Robert Buchheim, Hans Mark and Burton Edelson have agreed to present papers. We hope you will participate in as much of the Colloquium as possible, including the dinner on the evening of 3 June and we appreciate your continued interest and support.

25X1

25X1

4. I have attached a list of possible participants and a copy of the invitation that has been or will be sent to each. Any further suggestions or guidance you have would be most welcome.

25X1

5. A letter similar to this memorandum has been sent to the other three Sponsors.
